Proportion of Bags Sold per Avocado Type

Performance Insights.

Conventional avocado sales are **vastly higher** than **organic avocado sales**, with a total of \$6.72 billion compared to \$0.19 billion for organic avocados, which translates to a 3,440% difference.

General **positive growth trajectory** in avocado sales over the three-year period from 2015 to 2017, despite **a slight setback in 2016**.

The **average price** for organic avocados is higher at **\$1.70** compared to **\$1.20** for conventional avocados.

A **higher proportion of large bags** are sold for organic avocados (31%) compared to conventional avocados (22%), possibly due to consumers buying in **bulk to save on cost**.
